Glowing Star

Represents Miracle

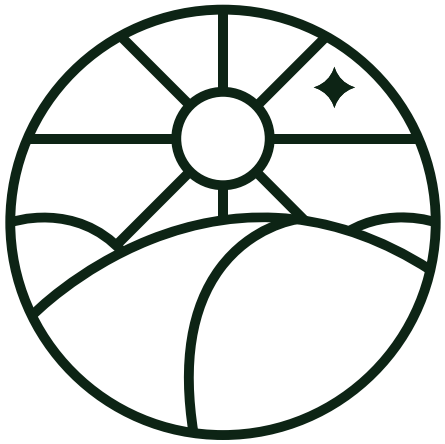
The Glowing Star icon represents a miracle, a symbol of wonder, something extraordinary, and a reminder of divine or surprising power. It conveys a sense of awe and inspiration, reflecting moments that go beyond the ordinary.
This star, seen in the East, is often remembered as a sign of miracles.

For example, the Holy Bible says, “the star in the East guided the wise men to find Him,” referring to the birth of Jesus. In this way, the star or glowing sparkle has come to symbolize miraculous events and divine guidance.

Earth with 4 separations

Represents Nature

The Earth icon, designed with four separations, symbolizes the harmony between Body, Mind, Spirit, and Environment. The essential elements of natural living.



All these elements unite within a circle, symbolizing wholeness and harmony. The glowing star shines as the Miracle, while the four separations form the pillars of Body, Mind, Spirit, and Environment. The Sun radiates vitality and wellness, illuminating the heart of the brand. Together, they embody the true essence of “Miracle Natural.”
